

Used mostly for skin and hair; reduces oily hair and dandruff while strengthening the hair and reducing hair loss. Works really well for acne, boils, fungus, skin disease, heals wounds, and controls body odors. It's a lymphatic stimulant, helps treat edema, simple water retention, and is more useful for chronic complaints than acute. Treats urinary infections, particularly cystitis and urethritis, reduces stress and anxiety and one of the most recommended oils for cellulitis. It also helps those with ADHD or ADD issues. Repels mosquitoes and moths.

Caution: Do not use when pregnant
