

Rocky Mountain Oils  
Cinnamon Bark

A powerful purifier; viruses, bacteria, and fungus cannot live in this oil. Treats many respiratory infections including flu, coughs, colds, typhoid, and tropical infections; general maintenance oil, helps lower glucose, helpful with diabetes, rheumatism, arthritis, sore muscles, and slows down diabetic neuropathy. It enhances the action and activity of other oils.

**Caution:** Always dilute with carrier oil because the high phenol properties of the oil make it feel warm or burn the skin. Not everyone can handle it on their skin.
